Aryan Gupta (201500148)
Rishabh Sharma(201500569)

Overview

- Resumify is a website that allows users to create and customize their own professional resumes

- The website is built using React, Node.js, HTML, CSS, Redux, and JavaScript

- It offers a range of features to help users create high-quality resumes with ease

Key Features

- Ability to enter and customize resume data using a JSON file or through the website's input fields
- Option to toggle on or off different resume components (such as education, experience, and skills)
- Sidebar menu for easy navigation and access to features like changing font style and cloud save
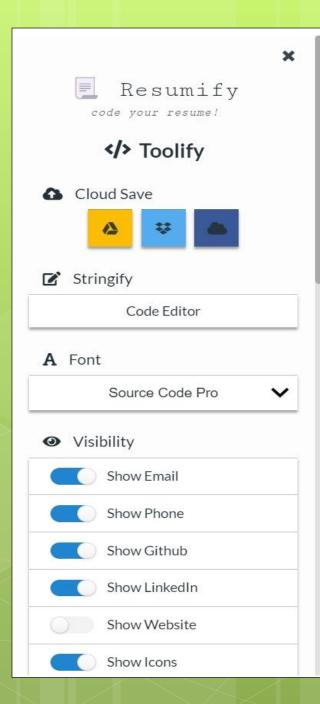

Key Features

- Ability to print out a completed resume using the "Printify" function
- Hyperlinks for websites and links in the resume data
- Automatic cloud save to prevent data loss
- Warning alert for data loss prevention
